

## *January 2024 Newsletter*

### **MONTHLY PRAYER MEETING**

OLCAP's monthly prayer meeting held on January 19 in the new Ministry Center, which is currently under construction, attracted around 40 attendees.

Among them were Mark, Mike, and Rick from GoServ Global. They honored OLCAP with a visit to Lukanji as they traveled across Africa.

The prayer meeting was indeed a blessed time, filled with praise, worship, and testimonies of God's goodness.

Mark's sharing of a word of encouragement from John 1:14, emphasizing "The Word became flesh and made his dwelling among us," served to remind attendees of the profound truth of Christ's incarnation and the closeness of God's presence in their lives.

### ***FIGHTING THE JIGGER MENACE***

In January, OLCAP provided treatment to 37 individuals who were suffering from pain and poor health due to jigger infestation.

These patients ranged from school children to families, all of whom expressed gratitude for the free treatment they received. Many had been enduring pain for an extended period, making the assistance provided by OLCAP particularly impactful and appreciated.

In addition to receiving medical treatment, the patients were offered prayers for quick recovery and restoration of good health through God's grace.

They were also introduced to the saving grace of Christ and invited to participate in Bible study and prayer meetings organized by OLCAP, providing them with spiritual support and encouragement during their recovery process.

Furthermore, the patients benefited from clothes donated by the friends of OLCAP, demonstrating the organization's commitment to holistic support for those in need, addressing both physical and material needs alongside spiritual care.

# **PIG REARING PROVIDES SUSTAINABLE INCOME**

OLCAP's pig farming project continues to be a beacon of hope for families living in poverty, providing them with a sustainable source of income and empowerment.

Nifa recently sold one of her mature pigs and invested in two sheep, demonstrating her forward-thinking approach to expanding her potential income streams.

Iliana's sow gave birth to nine piglets, presenting a significant opportunity for her family's economic advancement. By donating one pig to a new beneficiary, selling six to secure immediate income, and retaining two for breeding purposes, Iliana is effectively managing her resources for long-term sustainability.

Her plan to invest in a calf to give her milk, utilizing the proceeds from pig sales, underscores her commitment to securing additional sources of income and ensuring her family's well-being.

Her use of pig manure to fertilize her vegetable garden underscores the project's holistic approach to poverty alleviation, providing economic opportunities and enhancing food security and nutrition for families in rural Kenya.

# PRAYER AND PRAISE POINTS

- We give thanks to God for providing funds to build a worship place and for utilizing monthly prayer gatherings to disciple believers and share the gospel with non-believers in rural Kenya.
- We thank God for enabling us to help those suffering from health issues caused by jiggers, supporting the impoverished in starting pig farming projects for their sustenance, and using these initiatives for evangelism, inviting others to accept Jesus Christ as their Savior.
- Please pray for us as we undertake various ministry tasks this quarter, asking for God's wisdom and strength to fulfill His plans.
- Let's pray for God to inspire more individuals to support OLCAP financially, enabling us to spread the hope of Jesus to countless others.

## ***Partnership***

*We rely on the generosity of individual supporters to raise funds for OLCAP to cover the ministry expenses.*

*Would you consider joining our monthly support team to help bring the Gospel through relief to the people in Kenya?*
